Objective

Bachelor in Computer Science with hands-on experience in full-stack web development. Eager to apply modern JavaScript frameworks, enhance system performance, and contribute to scalable, impactful software solutions.

Education

Bachelor of Science in Computer Science (BSCS)

FUUAUST University, Islamabad, Pakistan

2022 – 2026

CGPA: 2.86

Relevant Coursework: Data Structures and Algorithms, Web Programming, Networking, Cyber Security

Projects

- **Wear Virtually — React Native (Expo), Node.js, Express, MongoDB, Three.js, TensorFlow**
Developed an AI-powered virtual try-on mobile application that generates realistic pictures using computer vision, enabling users to try outfits in real-time with an integrated marketplace for shops and customers.
Link: <https://github.com/shahzaib-raja786/fyp-frontend>
- **Personal Portfolio Website — React, TypeScript, Tailwind CSS, Node.js, MongoDB**
Developed a modern and responsive developer portfolio to showcase projects and skills, featuring animated UI, an admin dashboard for managing content, dynamic project sections, and image uploads with real-time updates.
Link: GitHub Repository / Live Demo
- **RoyalStore — Next.js (React), Tailwind CSS, MongoDB, Vercel**
Built a full-featured furniture e-commerce platform using Next.js with a responsive UI, product browsing and catalog, shopping cart, user authentication with JWT, admin dashboard for products and orders, and content management features integrated with MongoDB and Cloudinary for media storage.
Link: <https://github.com/shahzaib-raja786/royalstore-uk>
- **Chahat Construction Portfolio — React, Vite, JavaScript, CSS**
Built a static portfolio website for a construction business using React and Vite, featuring a clean responsive UI to show case services, projects, and contact information for clients.
